Contact: www.scrimba.com

SKILLS

HTML5   CSS   C++   C   Bootstrap

Java Script   React.js

PERSONAL PROJECTS

Covid-19-Tracker
- This application was built using React(chart,leaflet),Functional Components,Firebase,Material UI,Rest API.I have built InfoBoxes,Tables,Line Graphs and in last Map.Mterial UI framework used in InfoBoxes,Tables as well as in Line Graphs.Firebase is used for Hosting this web Application

Netflix-Clone
- This application was built using React (Custom Hooks, Context), Firebase & Styled Components.I have built pages within this application: sign in, sign up, browse & lastly the homepage. There are four different pages, some using protected routes with auth listeners. Firebase firestore handles all the data and that data is retrieved using a custom hook, authentication is used on all pages, which is handled by Firebase as well.I used compound components (just a design pattern) to build my components

ORGANIZATIONS

Robin Hood Army(RHA) (06/2019 - 2020)
It is zero fund organisation that gives food to hungry citizens.Currently the POC(head)of RHA Sonipat

CERTIFICATES
